

**DYNAMIC
COMPONENT
OVERHAUL
EXPERTS**

GLOBAL EXPERTISE, BASED LOCALLY

No need to send your dynamic components half way around the world, send them across the ditch. Have your components overhauled locally by the experts at Airwork NZ.

Airwork NZ is an industry leading helicopter engineering and maintenance, sales and leasing company. The in-house expertise, world class technology and certifications are what distinguish us within the global aviation market.

Based at Ardmore Airport in Auckland, NZ we are an Airbus Service Centre Facility and Kawasaki Service Centre with dedicated experienced factory trained engineers.

Our dynamic component overhaul division is:

- **CAANZ Part 145 certified**
- **Approved by Transport Canada**
- **EASA Approved**
- **FAA Approved**
- **A specialist in AS350/355 and BK117 aircraft**

COMPLETE SERVICE, NO DOWNTIME

Airwork NZ offers a complete service, including inspection, repair and overhaul of helicopter dynamic components. Our extensive range of exchange and rental units means we can also help ensure your helicopters remain fully operational during the overhaul.
