

AS350/355 DUAL FRONT SEAT KIT

STC.AW.1251

This modification introduces the installation of a two place front seat to increase the passenger load, where the seat is installed in lieu of the co-pilots seat. The mounting plate allows for a swift configuration change from co-pilot to Dual Front Seat.

Key Features/Benefits

- Increases the passenger carrying capacity to seven
- Mounting plate allows for quick configuration change
- Options available for co-pilot seat type - bucket seat or dynamic seat, and floor structure configuration
